LIT Topic: Potential Ideas/Speakers for 2022 NDA Conference

The NDA is committed to hosting a conference which ensures education and professional growth for all attendees. Please share your thoughts on potential ideas and speakers for the NDA's 2022 Annual Conference.

Do you have previous NDA conference sessions you've attended that would be worthwhile as an expanded or repeat session?

What are some professional areas, docketing or otherwise, frequently discussed by you and your peers and/or issues in the docketing profession consistently coming up in conversation that might make a good session?

What speakers have you encountered which might be an excellent fit for the NDA conference? Any interest in being a speaker and/or panelist?
